

Technicolor is home to creative technology professionals committed to the creation, management and delivery of entertainment content to consumers around the world. If you are passionate about excellence and innovation, we invite you to come and see us.

You too can be a part of our winning team!

Technicolor Edegem is the world leader in gateway devices and multiple-play applications. We develop state-of-the-art technology for our wide range of connected home products.

We are currently looking for a

Hardware Project Manager

Job Responsibilities

- You will lead the internal hardware design activities between mechanical, electrical and regulatory design experts. You also sync the hardware development plan, issues and risks with the overall project plan maintained by the overall project manager.
- You act as the single point of contact (SPOC) between Technicolor R&D and our ODM partners for Technicolor Telco Gateway product development.
- You have a key role in the R&D organization. You are the owner of the overall hardware deliverable, you manage on a daily basis the different hardware project activities inside Technicolor and at the ODM.
- You are supported by a multifunctional team of engineers (hardware, mechanical, regulatory), you assure that agreed deliverables by the ODM are inline with Technicolor R&D expectations (lead-time, product cost and product performance) which, in turn, is driven by Customer deliverables and expectations. On the longer term, you will be in charge to assure that the right processes are defined and implemented to secure market leadership and fast time to market of products towards customers.
- You will be the internal R&D representative for the hardware project in front of the core team.
- You represent Technicolor R&D towards our ODM partners
- You drive project initiation with our ODM partners together with the sourcing department
- You manage and take ownership of project milestones and deliverables of the ODM with support of Technicolor technical experts for hardware and mechanical design. You foresee and address issues during the development stage.
- You liaise with Technicolor and ODM operations and factories to assure seamless transition from development to mass production.
- You liaise with the Technicolor Hardware, Mechanical and Industrialization Project Leaders to assure seamless collaboration, product design and sign-off.
- You are accountable for the successful delivery (Quality, Time, Cost) of ODM project to Technicolor's customers.
- You track ODM KPI (key performance indication).
- You contribute to general process improvements and ODM performance review meetings.

- You will work in an R&D center with a dynamic, stimulating environment developing Next Generation Gateway products.
- You will work in an R&D center with a dynamic, stimulating environment, competitive compensation and plenty of opportunities to grow professionally, in an organization developing Next Generation Gateway products.

Education

Master's degree (or similar by experience) in Electrical Engineering or related discipline.

Experience

- A good technical background (hardware, mechanical engineering, manufacturing), preferably in Consumer Electronics equipment.
- At least 5 years Project Management experience, preferably in managing 3rd party suppliers (ODM/OEM/SoC suppliers)
- Previous experience with development and/or manufacturing of Gateway, STB or Tablet is a strong.

Requirements

- Results-oriented team-player with a pro-active mindset.
- Willing to travel abroad for short periods.
- Flexible in terms of working-hours (late/early conf-calls because of time-zone differences)
- Quality management experience is a plus.

Language

- English is mandatory.
- Dutch is a plus.

Location

Edegem (Antwerp), Belgium

Department: Connected Home, PDU Next Generation Gateways

Our offer

We offer a competitive package including fringe benefits such as a company car, free DSL connection, meal vouchers, hospitalization and group insurance together with career opportunities in a highly advanced technological and innovative environment.

Flexible working hours help you manage your work-life balance. Next to the 20 days of statutory annual leave and the public bank holidays, you are entitled to up 8,5 days extra from the reduction of working hours. Using our flex time system could allow you to 7,5 days more holidays and after each 5 years of uninterrupted service for Technicolor, you get an extra seniority holiday.

As innovative player, we encourage personal evolution. Collaboration will help you discover new opportunities and new working methods. Furthermore, if needed for you to grow and develop your potential we offer training.
