

Technicolor is home to creative technology professionals committed to the creation, management and delivery of entertainment content to consumers around the world. If you are passionate about excellence and innovation, we invite you to come and see us.

You too can be a part of our winning team!

Technicolor Edegem is the world leader in gateway devices and multiple-play applications. We develop state-of-the-art technology for our wide range of connected home products.

We are currently looking for a

Customer Technical Support Engineer Telco

Job Responsibilities

- You define and execute Product and Network Demonstrations tailored to Customer requirements in Presales Phase.
- You support the tendering team by answering technical statement of compliance and follow the technical Contract negotiations and adopt the technical Documentation accordingly including BOM.
- You manage technical Product homologation to receive necessary certifications for a market
- You create customized SW builds, installation CD and templates to apply network integration for dedicated customers.
- You develop customized WEB GUI Pages and configuration scripts based on LUA and SHELL.
- You test customized SW in customer network scenarios.
- You analyse technical issues on site/remote: you manage issue resolution between customer and business unit in all phases of product life cycle, you develop workarounds and alternatives.
- You manage artwork customization between customer and business unit.
- You plan and execute technical product phase in, phase out and transitions (customized SW/upgrade SW).
- You are single point of contact for all technical questions of Customer in presales, sales and post sales phase.
- You are responsible for customers national and internationally, including traveling for business occasions. This travels typically last between 2 and 5 days and can require up to 50% of the work time and can cover the whole EMEA-Region
- Depending on project needs, a 24/7 on call standby can be necessary in special periods of the year.
- You perform customer tailored technical Product training (configuration, operation, helpdesk).
